Tons of Silver.

It is announced that the great money firm of FLOOD & O'BRIEN have determined to exhibit at the Centennial Celebration a month's yield of bullion from the California and Consolidated Virginia mines. To the casual reader this announcement conveys nothing of vast importance, but when we begin to count up the aggregate these two mines are capable of producing within the time named the proposition looks dazzling. Men and mills in sufficient number may be worked to produce bullion to the value of ten million dollars during May. In June it will be forwarded to Philadelphia and at once placed on exhibition. The bullion will weigh one hundred and fifty tons and the three thousand five hundred silver bricks will load fifteen cars. When this immense weight of silver—the product of two mines for one month—is placed on exhibition what may we expect in the way of comment from those Eastern papers that still ridicule and scoff at the "great bonanza"? Ten million dollars is a large sum to be taken from two mines in one month, yet the California and Consolidated Virginia are equal to the task, and if Messrs. FLOOD & O'BRIEN so will it the fifteen car loads of silver will go to Philadelphia.

Attack on the Steamship Company.

The little band of patriots who aired their eloquence at the railroad mass meeting on Thursday evening denounced GOODALL, NELSON & PERKINS as slaves and their steamers as "old tubs," liable to sink at any time. Did we not know that the assemblage was in no sense one of leading citizens, and its expressions far from being an embodiment of the sentiments of the people of this city, we should be inclined to defend these gentlemen on the ground that they have proven themselves the friends of this city and valley, and also to deny that they are slaves or their steamers "old tubs." Messrs. GOODALL, NELSON & PERKINS have some claims on the gratitude of our people. At the expense of a large sum they relieved us of a monopoly that had long sapped our prosperity, and since they have held control of the line they have been uniformly kind and accommodating. They have made reductions in the rates for passengers and freight that have saved shippers and passengers many thousands of dollars. They reduced passenger fare from \$15 to \$12. On up freight the reduction has been large. On grain the aggregate reduction has saved farmers and shippers an immense sum. On wine—one of our chief exports—they also made a heavy reduction. They have increased the number of steamers and greatly improved the accommodations. As to the bondage and serfdom of these friends of our community we know nothing and shall only say that while slavery is a misfortune, ingratitude is written down as one of the basest of crimes. If the steamers are "old tubs" now what must they have been some years ago? Since Messrs. GOODALL, NELSON & PERKINS purchased these steamers they have expended on each from \$40,000 to \$75,000 in repairing and rebuilding. It must also be remembered that only a few days ago experts and competent judges testified before the Senate investigating committee that these steamers were good sailing vessels. Our citizens, almost with one accord, express astonishment at the treatment the steamship company received at the hands of the orators of the assemblage. It is also a subject of remark that of the enthusiastic little band of thirty there was but one regular shipper and he, we are informed, ships more freight by way of San Pedro than by Santa Monica. We trust these explanations will convince Messrs. GOODALL, NELSON & PERKINS and others abroad that the true sentiments of Los Angeles were not expressed at the "great mass meeting" of Thursday evening.

A Slight Misapprehension.

At a railroad mass meeting, attended by some thirty of our citizens, any one of whom could from his own private fortune build a double track railroad across the continent and not feel the expense, held on Thursday evening, our respected fellow townsman Mr. H. D. BARROWS, whose comprehensive views on the Finance question have so materially assisted the Government in solving that difficult problem and whose thorough information on the subject of railroad building entitles his remarks thereon to more than ordinary consideration, delivered an eloquent address, in the course of which he averred that malignant newspaper attacks had been made on the Los Angeles and Independence railroad. We have since heard that the HERALD was the paper intended to be arraigned, and well knowing the eloquent gentleman's aversion to anything bearing the semblance to prevarication or misstatement, we take pleasure in disabusing his mind of misapprehensions which could only have been created by his

accidental omission to peruse the editorials of the paper in question. Upon the self-apparent fact that the parties who are building what is miscalled the Los Angeles and Independence railroad, are a great deal more interested in enhancing the value of thirty-five thousand acres of land lying around Santa Monica than in the prosperity of Los Angeles city and valley; knowing that the appreciation of the thirty-five thousand acres of land will follow the building of the road no matter by whom owned or controlled, and having the assertion of a speaker at a former meeting who avowed his utterance to be *ex cathedra*, that the present owner of the road had his price, and if we did not give it, there was danger that it might be accepted from the Southern Pacific Railroad Company, the HERALD ventured to suggest that before our citizens subscribed over half a million dollars to the road's stock, it might be well as a precautionary measure to require some assurance that the competing advantage of the road would not be destroyed through its transfer to the Southern Pacific Railroad Company. This suggestion was made in the kindest spirit and intended to secure the people the very object for which they subscribed their money—a competing railroad—was not received in the sincere and friendly spirit in which it was offered, by those who are manipulating the scheme and since, it has suited their purpose to denounce the HERALD as an enemy to railroad competition. We regret that our object has been so seriously misunderstood, and we regret that they who assure us they are working for the best interests of the country should become so indignant over a simple request that the people should be secured against the possible danger of losing through the sale of the road the benefits of that competition, which is alone the inducement for them to become the purchasers of \$600,000 worth of its stock. If a request for this guarantee of security to the people makes the HERALD the enemy of the proposed road—why enemy it is. But if a sincere desire to secure as a competing road, one the people are asked to assist in building, makes a paper the friend and advocate of the best interests of the county, the HERALD is that friend and advocate.

OUR WASHINGTON LETTER.

[Special Correspondence of the Herald.]

WASHINGTON, Jan. 12th, 1876. The House again shook hands across that "bloody chasm" last Friday, and scarce an hour had elapsed before Fort, of Illinois, trotted out his wounded soldier and demanded that the Democrats give him the preference for office. This makes the fourth resolution to that effect that Fort has introduced during the session, and that poor soldier certainly needs a rest by this time—at least the House does. Last evening a few of the Department clerks and bloodthirsty militia gave Fort a free serenade as a token of their appreciation of his "brave devotion." Morton, of Indiana, is quite as "numerous" in shaking that "bloody shirt" and demanding investigations about Southern elections. He does not understand how it was that Mississippi went Democratic, and he wants a committee sent down there to manufacture election frauds and outrages. California also went Democratic at the last election, but Senator Morton says nothing about sending an investigating committee out there. The Mississippi matter will be elucidated for the Senate in a few days, and it will be shown how and why the State went Democratic, and why it went Republican at the previous election. It will also be shown how Bruce, the colored Senator from that State, bought the negro Legislature and his seat for \$4,000. The Senator from Indiana, in pursuit of political information, and the Democrats propose to accommodate him.

Mr. Caldwell, of Alabama, proposes to show how some of those so-called outrages were committed, and accordingly has introduced a bill in the House calling upon the Secretary of War for a statement of the number of troops in the States of Georgia, Louisiana, Alabama and Mississippi, where stationed, for what purpose, and names of the commanding officers.

CALIFORNIA MATTERS.

Effigy Sargent has introduced a little bill for the relief of Louis Rose and others claiming title to lands within the lines of the military reservation at San Diego. Also, granting the right of way for railroad purposes through the United States Arsenal grounds at Benicia.

Ben wants the tax removed from brandy manufactured from fruits, and parties punished for adulterating the simon pure article.

ARIZONA MATTERS.

The Secretary of War has submitted a communication to the Senate in which he recommends that the military reservations on which are situated Camp Grant and Camp Crittenden, in Arizona Territory, be transferred to the Interior Department and sold under the public land laws.

THE ARKANSAS HOT SPRINGS.

Those little "purely local" bills are coming to the front already. Dorsey, one of the carpet-bag Senators from Arkansas has introduced a little thieving bill authorizing the sale of the Government lands on which are situated the celebrated Hot Springs in that State. As soon as the bill passes, his friends would secure this property for a song, and sing it themselves; or, in the plain vernacular, price the property and take it. But the few Democrats there assembled are keeping their eyes peeled for just such bills, and when passed that body, the "little joker" will be pointed out in the House, and squelched.

\$1,500,000 WORTH OF PATRIOTISM.

The Philadelphia exhibitors are after the United States Treasury, and want one million and a half with which to run their big Centennial show. The bill introduced provides for the payment of \$500,000 immediately, and the balance in four equal installments, and at short intervals. The bill provides that no "deficiency claim" shall be brought in against the Government, which is a very wise safe-guard, as otherwise they would

be more numerous than Indian or Revolutionary claims.

A SMALL BRIBE.

One "General" Ellis Spear holds a position in the Patent Office. A resolution was introduced by Mr. Phillips of Missouri, asking how he got that office, which question was subsequently answered in the same resolution by stating that the "General" had subscribed \$34 towards the presentation of a "watch testimonial" to Mr. M. D. Liggitt, the General Commissioner of Patents. Hundreds of just such cases will come to light as soon as the House gets its investigating machine to running smoothly.

SOUR GRAPES.

The old House Republican Committee Clerks have resigned, but they did not do so until they had virtually kicked out. Or, more properly they had nothing to resign. They were Clerks of Committees of the last Congress. The new Congress appointed new Committees, and they being Democrats, of course, appointed Democratic Clerks. The idea of a Republican office-seeker resigning anything is preposterous. Four newspaper reporters, connected with the "Independent" press, have received Committee clerkships.

REDUCTION ALL AROUND.

Randall of Pennsylvania, and Holman of Indiana, are going after the extravagant Republican Administration in a manner which characterizes them as Granger bulls—with hay on their horns. They intend reporting a bill from the Committee on Appropriations, of which Randall is Chairman, recommending the reduction of the army from 25,000 to 15,000, which would save the Government at least \$10,000,000 a year. Also, another reducing the expenses of the Navy to \$15,000,000—a saving of over \$5,000,000 a year. That useless appendage, the Marine Corps, will in all probability be abolished, which will save nearly a million. It is now proposed to cut down the expenses of the Diplomatic Corps by reducing salaries and abolishing minor Consulships. Postmaster salaries are to be reduced, and the military establishment abolished in cities with a population less than 80,000. It is further proposed to reduce the usual estimate for river and harbor improvements, which augurs bad for the several States which stand sadly in need of Government aid for such improvements. The House proposes to save the Government at least \$30,000,000 a year, and run it in as good shape as before. It is even hinted that the salaries of Congressmen will be reduced from \$5,000 to \$3,000 a year—the old standard.

THE SAN FRANCISCO MARINE HOSPITAL.

The Hon. W. A. Piper, member from the San Francisco District, certainly would rise to a "question of privilege" were the aggravation of sufficient importance to demand notice. Some time since, it will be recalled, Government authorized the Marine Hospital at San Francisco, situated on the etherial heights of Rincon Hill. The Hon. Jesse D. Carr of San Francisco, claims the site on which it is built, and now has a suit pending for its possession, and until this suit is decided the Secretary of the Treasury will not order its sale. Some malicious person has written to a certain California paper that Secretary Bristow and the Hon. Mr. Piper had formed a "ring" for its purchase at private sale for a mere nominal price. Secretary Bristow, correspondent with the *Star*, has written to a certain California paper that Secretary Bristow and the Hon. Mr. Piper had formed a "ring" for its purchase at private sale for a mere nominal price. Secretary Bristow, correspondent with the *Star*, has written to a certain California paper that Secretary Bristow and the Hon. Mr. Piper had formed a "ring" for its purchase at private sale for a mere nominal price.

POLYGAMOUS UTAH.

The women of Utah have presented a petition to Congress 365 feet long, and signed by 23,261, praying that their Territory be admitted as a State; that the law punishing polygamy be repealed so that their husbands can pursue their religious belief and practice without the fear of arrest and punishment. Each wife also asks the privilege of locating 160 acres of Government land, which if allowed, your correspondent will immediately settle with his landlady and marry ten or twenty Mormon women, and thus be transmogrified into a bloated landholder.

PERSONAL.

During the Congressional recess, the Hon. P. D. Wigington left on a visit to some friends and relatives at Rockport, Wisconsin. A letter received from him yesterday states that he is quite sick, and will not be enabled to return to Washington for a week or two.

H. W. Thomson, one of the founders of the San Francisco Evening Post, is the special correspondent of the *Chicago Tribune*.

Richard Lambert, well known in San Francisco mining circle and corners is responsible to posterity for those long-winded letters in the *San Francisco Post*.

Snow at San Bernardino.

SAN BERNARDINO, Jan. 21st.—A slight snow storm visited this place to-day, being the first for eight years. The boys enjoyed it hugely. It lasted only about ten minutes. The mountains surrounding the town were covered with several inches of snow from appearances, as low down as the Warm Springs. If it should turn warm a big freshet is looked for.

San Francisco News.

The Pacific Mail Company have obtained pardon from the Hawaiian Government for the piracy of James I. Waddell as commander of the Rebel cruiser Shenendoh, in the burning of a Hawaiian whaling bark in the Arctic seas. This act of the Hawaiian Government will compel it to protect Waddell in case he ever enters Hawaiian waters.

The weather to-day has been somewhat out of the common way, even for Winter. It snowed this morning, and the storm was accompanied by a slight shock of earthquake. At one o'clock it snowed and hailed again, and at 8 o'clock to-night hail fell thick. The thermometer was 31 this morning and now 28. It is the coldest day experienced in San Francisco for many years.

Mr. Stout, who made a report on the Spruce Valley water works and the bad condition of the water to the State Board of Health last week, is out in a long statement to-day, going back on his first statement, which he says was made on information furnished by others. In the statement he says he has made, at the request of the Company, a personal inspection of the water-sheds, whence the supply of water is derived, and that that good and tolerably clear and clean water is obtained. His first statement was correct when he said the water in the city was impure.

Patrick Foy and George Pierson, two of the gang of the Jessie street hoodlums, who to the number of 12 several months ago broke into the house Mrs. Eliza Rigney late at night and outraged her, were on trial in the Municipal Court yesterday for rape. The evidence against the accused was of the most positive character, and the Jury brought in a verdict of guilty.

Important Correspondence.

WASHINGTON, January 21st.—The President to-day enclosed the letters of Secretary Fish and copies of his correspondence with the House of Representatives, in response to a resolution of that body calling for copies of the correspondence in relation to the Cuban question. The documents are voluminous and comprise much that has heretofore been published. It appears that on the 5th of November the Secretary of State addressed lengthy letters to Minister Cushing at Madrid, the first of which refers to the neglect of Spain to comply with the stipulations of the protocol of November, 1873, and particularly in relation to the trial of Burell according to the terms said protocol. It appears that no steps have been taken by the Spanish government to that end, but that it was even then discussing certain abstract questions when it should be making the investigation without waiting for any communication from the United States government. The Secretaries say it has been and is our desire to adjust this and every other question, and in this desire we have been pressed almost to the limit of endurance. In some spirit you have again been instructed to represent to Spain the injury to that course in reference to Gen. Burell. The investigation of both countries and its efforts on our relations, and therefore it is earnestly hoped these representations will be responded to in the same spirit whether this question shall proceed or follow the treaty question or confiscation. The case is left to your discretion, and on the 16th of November a telegram was sent by Mr. Cushing to Mr. Fish on the statement of the Spanish note that case in. It repeats the assurance of the trial of Burell on the date of November 18th, 1875. The Secretary of State addressed another communication to Mr. Cushing, which is as follows:

DEPARTMENT OF STATE, WASHINGTON, Nov. 5, 1875.

CALEB CUSHING, Esq.—Sir: Pursuant to the ultimatum conveyed by your letter of the 24th, I deem it necessary to recur to and consider our present relations with Spain in reference to the arbitrary seizure and withholding of estates and property of citizens of the United States in Cuba by proceedings of confiscation or embargo, so that a separate instruction was addressed to you, and under date of the 5th, prior to your departure for Madrid. I referred therein to the general facts surrounding these cases, to the arbitrary action of the authorities, by which the property of American citizens had been confiscated, the general question of our relations with Spain, and to consider the progress which has been made in disposing of outstanding questions which for some time past have seriously threatened the relations of the two countries. At the time of your departure for Madrid, apart from the general question of the unsatisfactory condition of affairs in Cuba, and the failure to suppress the rebellion, several prominent questions remained unadjusted,

the settlement of which was necessary before satisfactory relations with Spain could be established or maintained. On all these you were instructed. Most prominent among them were questions arising from embargo and confiscation of the estates of American citizens in Cuba. These relating to the trial of American citizens in that island in violation of investigations, and claims arising out of the capture of the Virginian, including the trial and punishment of Gen. Burell after the expiration of more than 18 months, it seems advisable to examine what progress has been made and to consider our present relations with Spain in reference to the arbitrary seizure and the withholding of estates and property of citizens of the United States in Cuba under the proceedings, after what progress has been made, and to consider our present relations with Spain. Then after property of American citizens had been seized in violation of treaty provisions, in absence of Judicial proceedings, without a hearing and under such circumstances as to call for vigorous protest and demands on the part of this Government. The general facts surrounding these cases are well known. It is not pretended so far as I am aware that any legal justification of these wrongs has been attempted on the part of the authorities of Spain, or that these proceedings in Cuba are deemed irregular. On the contrary, pursuant to the decree issued by the government on the 12th of July, 1875, the illegality and undefensible character of these acts was admitted, and the embargoes were ordered to be removed and the property to be restored. This decree was first received in Cuba with calm indifference, not even published or adverted to. The proceedings of the authorities were in a notable respect changed thereby at the time of the visit of Seymour to Soler y Pla, Minister of ultra marine, the decree was in some instances recognized and some insignificant steps taken in individual cases to comply therewith; in general, however, it was claimed either that incumbencies existed, making compliance therewith impossible or the delivery was offered, bordered by leases or incumbencies and coupled with unfair conditions, or demands of delivery was awarded on the ground that that particular property was confiscated, not embodied in the first decree was treated in general with supreme indifference. You were informed that the President, while not disposed to question the willingness of the authorities in Spain to do justice to this Government and her citizens, expected that means would be found to compel agents in Cuba to obey orders of the Supreme Government; such was the condition of the question at the date of your departure, numbers of American citizens had at this time been deprived of their property and were anxiously awaiting performance of promises and assurances which had been given by the Spanish government, in spite of all the efforts which you have made. Intelligent and energetic as they have been, no official result has been accomplished.

A special despatch from Rome says the Italian Government has closed the Episcopal Seminary at Como for its refusal to admit the Government Inspector. This is most important, being the strongest step yet taken in State dealing with the church, and will doubtless produce great results.

Sole Agents HERALD Pamphlet.

Los Angeles, Jan. 18th, 1876.

The communication was referred to the Committee on Newspapers and Publications.

A communication from C. V. Hall was read, proposing to furnish 5,000 copies of the next issue of *Hall's Land Journal* for the use of the Chamber for the sum of \$150. Referred to the same committee.

The following communication was also presented and took the same course:

To the President and Directors of the Chamber of Commerce:

GENTLEMEN.—As it is almost self-evident that the most favored county in the State cannot be fully represented during the great opening fair at Philadelphia, except, perhaps, in one of its productions, viz: wines; would it not be well to prepare a small volume of statistics that would accurately present a perfect picture of all that which cannot be otherwise presented, to that vast representative and inquiring body? Say ten thousand copies in pamphlet form, rigidly and exactly gotten up and to be entitled as follows: "An Epitome of the Great Semi-Tropical County of the State of California, Presented to the Visitors of the Centennial Exhibition at Philadelphia, 1876, by the Authority of the Chamber of Commerce and the Mayor and Common Council of the City of Los Angeles."

The rain gauge at the Southern Pacific depot marks one and one fifth inches for the twenty-four hours ending 8 A. M. yesterday.

The Baptist congregation have put a stove into the German church on Spring street so that worshippers may be assured of a warm seat in the sanctuary on Sunday.

Dr. Lucky requests us to say that no one is authorized to say that he intends to contest the matter of the reduction of his salary by the Board of Education.

The shipments Friday morning from the Southern Pacific depot included 130 sacks of corn and 36 sacks of bran from Aliso Mills, and 50 sacks of feed from Hellman, Haas & Co.

The crowded state of our columns prevents us from giving the extended notice of the lecture of Mrs. Watson, at Good Templars' Hall last night which we had prepared, and we can only say that it was just splendid.

In the County Court, in the case of the people vs. Matthew Orr, Constable of Compton Township, for assault with deadly weapons upon Juan Sepulveda, the Jury brought in a verdict of guilty.

We had the pleasure of meeting Mr. Downing, the lively stable man from Wilmington, yesterday, and he has promised us the freedom of that city. We are going to avail ourselves of the invitation suddenly.

The tickets for the benefit performance of the Harrises, Charley and Lotta, are going off like hot cakes. Lotta is pretty and a good actress, and Charley isn't quite so pretty, but then he is "so good."

Day before yesterday, as one of the dirt cars was coming out of the San Fernando tunnel, the brake broke as they were coming down the incline, and the car ran over the horse and a Chinaman, killing both.

The Baptist folks have put up a stove in their house of worship, the German Church on Spring street, and the room will be made pleasant and comfortable for all who desire to attend their services. All are cordially invited.

Mr. Jones, who was scuffling with a friend in front of the St. Charles Saloon Thursday evening, slipped and fell on the sidewalk, his pistol being discharged, the ball going through his clothing and grazing his leg.

The District Court will open Monday for hearing motions and demurrers, prior to adjournment for the term. The attention of the Bar is called to this, as it will be the last day of the term, and it is desirable to have cases issue at the beginning of next term.

A man who had taken considerable more tarantula juice than he could carry conveniently got badly kicked yesterday, on Aliso street. He insisted on being weighed on Smith's scales and Winegar weighed him and he was found wanting, and escorted from that locality.

The Grand Central Hotel last night was crowded from office to garret. The parlor was chafed off in spaces three by six feet, and all were secured before supper time. Several applicants for a cot on the roof were declined, but they were given comfortable quarters on the soft side of the office table. We are glad to note Fisher's popularity.

I. B. Colson, on Aliso street, next door to J. Z. Smith's store, turned out yesterday from his manufactory a fine specimen of his handwork in the shape of a baker's wagon, the first job at this shop. It is a first-class vehicle. John Bryan did the painting, and we would recommend our friends to see Mr. Colson if they want something in that line.

Chamber of Commerce.

The Board of Directors of the Chamber of Commerce met last evening, with President Lazard in the chair. Present—J. G. Downey, H. D. Barrows, W. J. Brodick, R. M. Widney and S. B. Caswell.

The minutes of the previous meeting were read and approved.

The following communication from Louis Lewin & Co. was then read:

To the Honorable Board of Directors of the Chamber of Commerce, Los Angeles: Gentlemen—The enclosed pamphlet, containing over sixty pages of reading matter, besides advertisements, will in a few days make its appearance as the "HERALD Pamphlet for 1876." Better than any of its predecessors, and vastly superior to any other book of the kind, it is especially adapted for distribution elsewhere. Its columns contain everything which can make such a pamphlet useful, in explicit statements of facts. We ask your honorable body to give it a thorough examination. The more thorough you are, you will give the pamphlet your endorsement. We understand that it is the intention of your honorable body to send such statements and information as the HERALD Pamphlet contains to different parts of the United States, and for this purpose we offer you the HERALD Pamphlet in quantities and at prices as per memorandum enclosed. Your early action upon this will oblige.

Your obedient servants,

LOUIS LEWIN & CO.,

Canta of Esther.

This evening the citizens of Los Angeles will have an opportunity of enjoying a rare musical treat. Professor Hakes has won an enviable reputation in rendering this beautiful piece of music in the East, and Mrs. Hakes is an accomplished vocalist. Those who have attended the rehearsals in the city are unanimous in the opinion that the cast is well made up and that each part will be rendered as never before in California. If Turn-Verein hall is not crowded this evening with music lovers we shall conclude that there is not a hall full of music lovers in town.

SEWING MACHINES!

If you are wanting to buy a Sewing Ma-
chine, try a new Wilson and you will have no
other.

A trial will convince the most skeptical of
its superiority over all others, being adjustable
in all its parts, every movement being
different varieties of sewing from the finest
fibre to the heaviest cloth or leather.

The latest improved Wilson will not run
backwards, thereby avoiding the breakage of
needles and thread and necessitating the re-
moving of the goods from the machine while
the bobbin is in the case with all other ma-
chines. HIGHEST PREMIUM AT
THE WORLD'S FAIR, Vienna 1874. A very
important improvement has lately been ad-
ded to the Wilson. Call and see before pur-
chasing elsewhere. To try one is to buy one.

CITY LOTS SOLD

ON

Monthly Payments!

OWING TO THE UNLOOKED-FOR events
which have transpired in the past three
or four months, and which have made money
scarce, I will offer for sale, some

CHOICE REAL ESTATE,

Situated in the centre of the city, viz:

Ninety-seven Lots

FRONTING ON TEMPLE STREET,
On the East side of Pearl, and South of Canal
streets. About four minutes'
walk from Temple Block.

The Surveyor is now at work surveying
these lots. They are not to be sold out in the
stereotyped style, in small lots, but in order
to get the greatest number of lots, with no re-
gard to the grades of the street.

This Tract is Laid out in
Park Form.

Each street is made to conform to the topo-
graphy of the land, thus preserving the nat-
ural formation, and reducing the cost of
grading to the minimum.

PARK VIEW TRACT

Commands a view of my Park, which will,
in a short time, be the

Most Beautiful Spot in the
Country.

Already several thousand trees have been
planted, and walks and drives made, and
fountains constructed, at a great expense.

WATER

Is Already on the Tract.

As soon as the map and survey are com-
pleted, the lots will be offered at private sale,
on the installment plan, as follows, viz:

On lots worth from \$300 to \$400, \$20 per
month; and on lots worth more than \$400,
\$25 per month—both with interest at one
per cent. per month on the unpaid balance.

Parties desiring to pay in full for their lots
before the installments become due have
that privilege.

I will hold these terms open till Janu-
ary 25th.

Parties who make one payment on a lot
at once take possession by building a house,
and avoid the great expense of paying
rent, and in a short time, by the saving of
this item of expense, can pay for their lot.
Meantime,

The Property is Increasing
in Value

And at the expiration of twelve months, will
be worth three or four times what it now
costs. Apply to

P. BEAUDRY,

Opposite City Council Rooms.
